

A schematic diagram of a device 100. The device consists of a central component 120, which is a shaded, elongated hexagonal shape. This central component is connected to two side components, 111 and 112, which are rectangular shapes. The entire assembly is labeled 100. The side components 111 and 112 are connected to the central component 120 via a narrow neck or channel, labeled 110.
